In this policy, the investment risk in investment portfolio is borne by the policyholder

Welcome to the Largest Family in the World

Sahara India Pariwar

Sahara India Pariwar's success story began in 1978. Starting on a modest scale with a capital of only Rs. 2000 (USD 43), the company has traversed a long way to become a frontrunner in Indian entrepreneurship. Today Sahara India Pariwar is a major entity on the corporate scene having an asset base of approximately Rs. 56,000 crores to date (USD 12 billion) and diversified business interests in: Finance, Infrastructure & Housing, Media & Entertainment, Consumer Products, Manufacturing, Services & Trading.

The Company

It was in the year 2004 that the Sahara India Pariwar entered the Life Insurance industry with the first wholly Indian "Sahara India Life Insurance Company Ltd" in the Private Sector. The main objective of the Company is to reach out across the country to all segments of society not only to the privileged and urban based but to those belonging to the middle class and living to the rural areas as well.

The Plan

Children are the purpose of our lives. We would go to any lengths to take care of their requirements even at the cost of our own. Their requirements are spread over a long period of time and therefore need to be planned much in advance. Life insurance is an ideal instrument through which this can be achieved. A flexible plan like this makes it even more attractive for the parents since the required finances would be available to them whenever required for their varied needs like education, marriage or for any other purpose.

The unit linked plan enhances the value of the savings over a period of time and offers choices to the customers to choose the investment plan according to their risk profile and investment horizon at various points during the life of the policy.

The financial markets in the country today are at a very exciting stage with the Indian Economy poised to grow rapidly in the next several years. We at Sahara India Life Insurance Company felt that our policyholders must be part of this excitement and derive direct benefit from the great potential provided by these markets.

Modes available for premium payment

Single Premium, Yearly, Half-Yearly and Monthly (Group billing only)

Grace period for non-forfeiture provisions

Grace period of 30 days irrespective of any calendar month will be allowed for payment of yearly and half yearly premiums and 15 days in monthly mode of premiums. In case premium installment is not paid within the grace period and death occurs within this period, the policy will be still valid and the sum assured less partial withdrawals within two years preceding the date of death, if the risk under the policy has commenced, or fund value whichever is higher subject to recovery of mortality charge shall be paid to the claimant. If the risk under the policy has not commenced, the fund value shall be payable.

What happens if the payment of premiums is discontinued?

- If premiums for three years have not been paid and the installment premium is not paid within the grace period, the policy shall lapse. A lapsed policy can be revived during one year on payment of all arrears of premium and submission of proof of continued insurability to the satisfaction of the Company. However the Company reserves the right to accept or decline the revival of a lapsed policy. The revival of a lapsed policy shall take effect only after its approval is specifically communicated to the policyholder.
- If premiums have already been paid for three years the risk under the policy continues for one year during which the policy can be revived subject to payment of all arrears of premium. If policy is not revived within one year, the policyholder can not revive the policy subsequently and will be offered surrender value as applicable but can opt for continuance of risk which will be allowed till the balance in the fund is such that the surrender value payable to the policyholder is about one year premium under the policy when the policy will be cancelled and the surrender value amount paid to the policyholder.

What is the revival period and death benefit available during that period?

The revival period is one year from the date of first unpaid premium and death benefit during the period payable is as under:

- i) If at least 3 years premiums have been paid-

Maximum of sum assured reduced by partial withdrawals within two years immediately preceding the death of the life assured or the fund value on the date of receipt of intimation of death in writing in the office of Sahara India Life Insurance Co. Ltd;

- ii) If premium for less than 3 years have been paid-Fund Value

Method of Calculation of Net Asset Value

The Unit Price (UP) of a fund will be set by dividing the Value of the assets in the fund at the valuation time (at the end of the day) by the number of units. For new business, units will be allocated depending on the price of the units using the closing NAV on the day of cheque realization or policy issue whichever is later. For subsequent payments of premium if cash / local cheque / DD are received in the office of the company by 3:00 p.m., the closing NAV of the day on which premium is received would be applicable. In case premium by local cheque/ DD is received in the company after 3:00 p.m. closing NAV of the next business day shall be applicable. In case of outstation cheque/DD, closing NAV of the day of realization will be applicable.

The Net Asset Value (NAV) of the each of the Funds will be computed at the end of the day (on daily basis). The NAV would be calculated on appropriation basis or expropriation basis depending on whether the company is purchasing or selling the assets in order to meet the day to day transactions of Unit allocations and Unit redemptions. The resulting price will be rounded to the nearest Rs 0.00001. NAV (Appropriation/Expropriation) would be calculated as under:

Market/Fair value of the fund's investments + Expenses incurred in the purchase of the assets + Value of any current assets + Any accrued income net of fund management charge - the value of any current liabilities less provisions

Net Asset Value =
(Appropriation price) -----
Number of existing units at the valuation date (before any new units are allocated)

Market/Fair value of the fund's investments - Expenses incurred in the sale of the assets + Value of any current assets + Any accrued income net of fund management charge - the value of any current liabilities less provisions

Net Asset Value =
(Expropriation price) -----
Number of existing units at the valuation date (before any units are redeemed)

Allocation to the Unit Fund

The allocable amount as per the allocation rates given below will be invested in the policy fund. Units will be allocated depending on the price of the units using the closing NAV on the day of cheque realization or policy issue whichever is later.

Single premium 97.5%
Regular Premium

Percentage of premium allocated	Premium Term 9-12 years	Premium Term 13-16 years	Premium Term 17-21 years
Year 1	90%	80%	75%
Year 2	95%	90%	90%
Year 3	95%	90%	90%
Year 4 +	97%	95%	95%

Charges under the Plan

- Unallocated portion of the Premium – The difference between the total premium and the allocated premium.
- Administration fee – A monthly Administration Fee of Rs.25/- will be deducted by canceling appropriate number of Units at the beginning of the month at the prevailing unit value. Administration fee may be increased at the discretion of the company subject to maximum of Rs.40/- per month depending on the experience of the company and subject to approval of IRDA.
- Fund management charge – There will be a charge, as mentioned in the chart below, which will accrue and will be charged to the fund on a daily basis from the Policyholder's Unit Account towards Fund management expenses. Thus, the value of the Units in the Fund would be calculated after taking into account the Fund Management Charge.

Fund	Secured	Balanced	Smart	Growth
Fund Management Charge	0.65% of the Fund Value subject to maximum of 0.90% p.a. depending on the experience and subject to approval of IRDA	0.75% p.a. of the Fund Value subject to maximum of 1.00% p.a. depending on the experience and subject to approval of IRDA	1% p.a. of the Fund Value subject to maximum of 1.25% p.a. depending on the experience and subject to approval of IRDA	1% p.a. of the Fund Value subject to maximum of 1.25% p.a. depending on the experience and subject to approval of IRDA.

- Mortality charge – Mortality charge will be recovered by cancellation of appropriate number of units at the beginning of every month depending on policyholder's age at that time and the same would be product of the mortality rate with net sum at risk (difference between sum assured as reduced by partial withdrawal(s) within two years during the policy terms and the fund value) at that time. The annual mortality charges (per unit of Sum at Risk for life cover) are as per the table below:

* The Fund Values given above are indicative. Actual Fund Value will depend on the actual performance of the fund.

** Death benefit as stated shall stand reduced by the partial withdrawal made within two years immediately preceding the death of the life assured. The death benefit where it exceeds Rs.2, 00,000 is only indicative depending upon performance of the fund.

*** The Surrender Value benefit depends on the actual performance of the fund and is not guaranteed.

Free-look period

Policyholder is entitled to review the terms and conditions of the policy within a period of fifteen days from the date of receipt of the policy bond and in case of any disagreement with the terms and conditions, the policyholder shall have option to return the policy bond stating the reasons for disagreement. In such a case the policyholder shall be entitled to refund of non allocated premiums plus fund value on the date of cancellation after deduction of proportionate risk premium, expenses incurred towards medical examination and stamp duty charges.

Tax benefits

- Premiums paid under the policy are eligible for Income tax benefits under 80C of the Income Tax Act, 1961.
- The maturity proceeds of the policy are not taxed as income of the policyholder or his dependents under section 10(10D) of the Income Tax Act, 1961. Section 10(10D) may not apply if the premium including Top up amount exceeds 20% of the Sum Assured in anyone year during the term of the policy.
- These benefits shall be subject to modification as per prevailing statutory provisions from time to time.

Statutory warning

Some benefits are guaranteed and some benefits are variable with returns based on future performance of your insurer carrying on life insurance business. If your policy offers guaranteed returns, then these will be clearly marked "guaranteed" in the illustration table on this page. If your policy offers variable returns, then the illustration on this page will show two different rates of assumed future investment returns. These assumed rates of return are not guaranteed and they are not the upper or lower limits of what you might get back as the value of your policy is dependent on a number of factors including future investment performance.

(1) As per Section 41 of the Insurance Act, 1938 (4 of 1938):—"No person shall allow or offer to allow, either directly or indirectly, as an inducement to any person to take out or renew or continue an insurance in respect of any kind of risk relating to lives or property in India, any rebate of the whole or part of the commission payable or any rebate of the premium shown on the policy, nor shall any person taking out or renewing or continuing a policy accept any rebate, except such rebate as may be allowed in accordance with the published prospectus or tables of the insurer."

(2) If any person fails to comply with sub regulation (1) above, he shall be liable to payment of a fine which may extend to Rupees five hundred.

Section 45 of Insurance Act, 1938: No policy of life insurance shall, after the expiry of two years from the date on which it was effected, be called in question by the insurer on the ground that a statement made in the proposal for insurance or in any report of a medical officer, or referee, or friend of the insured, or in any other document leading to the issue of the policy, was inaccurate or false, unless the insurer shows that such statement was on a material matter or suppressed facts which it was material to disclose and that it was fraudulently made by the policyholder and that the policyholder knew at the time of making it that the statement was false or it suppressed facts which it was material to disclose.
